WELCOME!

We're thrilled to have you here. Please be respectful of park property and mindful of others as you enjoy a fantastic day of disc golf and outdoor fun. Embrace the challenge and let the good times fly!

HOW TO PLAY

Disc golf is similar to traditional golf but played with flying discs. Each hole begins at a concrete tee pad and ends at a basket. Players count one stroke for each throw until the disc successfully lands in the basket, making contact with the chains. The objective is to complete each hole with as few throws as possible. The player with the lowest overall score for the entire course wins.

Project Leaders:
Lexis Bennett & Kristie Neer
